EXCLUDED FROM THESE FIGURES · 1

1,282 sessions were counted. These were logged in Q3 2026 and were not.

AWAITING REVIEW	DECLINED	DELETED
1	**0**	**0**

COUNTING RULES · 6

1. Only approved sessions are counted. Sessions still awaiting review, sessions that were declined, and sessions that were deleted are all excluded, and each is counted above.
2. A session counts towards the period it occurred in, not the period it was logged or approved in.
3. Hours are minutes divided by sixty, rounded to two decimal places once at the end. Nothing is rounded before it is summed.
4. Participation is the number of people who logged at least one approved session in the period, out of the 1,211 people on the active roster. It is rounded down.

Demo data. Northwind Traders is a fictional company on the reserved northwind.example domain; the charities are real organizations. Printed from the Corporate Giving Hub board pack.

5. Value is hours multiplied by $34.79 and rounded down. That rate is Independent Sector's national estimate; cite it if you publish the figure.
6. People served is the sum of the counts volunteers entered on their own sessions. It is self-reported and may double-count a person served on more than one session.

PROVENANCE
